Document status and date:

Published: 01/01/1975

Document Version:

Publisher's PDF, also known as Version of Record (includes final page, issue and volume numbers)

Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

Erratum to:

Revised Phase Diagram and X-Ray Data of the Mn_3O_4 - Al_2O_3 System in Air

(*Z. anorg. allg. Chem.* **415**, 69 (1975))

By E. H. L. J. DEKKER and G. D. RIECK

Eindhoven (Netherlands), Laboratory of Physical Chemistry, Eindhoven University of Technology

The oxygen parameters used in calculating the structure-factor expression should be read as $u = 1/4$ and $u = 0.234$, appropriate to the centrosymmetric setting of the spinel structure. These correspond to $u = 3/8$ and $u = 0.391$ in the acentric setting.
