Document status and date:

Published: 01/01/2018

Document Version:

Publisher's PDF, also known as Version of Record (includes final page, issue and volume numbers)

Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

PREFACE

The Third International Conference on Technology Trends (CITT 2017), was held on the main campus of Universidad Técnica de Babahoyo (UTB), in Babahoyo – Ecuador during November 8-10 2017. The CITT series of the conferences aim to become the premier venue for research on technology trends. Bringing together top researchers and practitioners working in different domains in the field of computer science and information systems to exchange their expertise, and to discuss the perspectives of development and collaboration in these areas. The purpose of CITT was to facilitate technology and knowledge exchange among researchers, academics, and industry to obtain benefits from the advances in computing technologies. The content of this volume is related to the following subjects:

1. Communications
 - a. Internet of Things
 - b. Mobile and Wireless Networks
2. Computer and Software Engineering
 - a. Security and Privacy
 - b. Computational Intelligence
 - c. Data engineering and data science
 - d. Human-Computer Interaction
 - e. Software engineering
 - f. Software design

CITT 2017 received 71 submissions both English and Spanish from 187 authors coming from 9 different countries. All these papers were peer-reviewed by the CITT 2017 Program Committee consisting of 59 high-quality researchers coming from 14 different countries. To assure a high-quality and thoughtful review process, we assigned each paper at least three reviewers. Based on the results of the peer reviews, 16 full papers were accepted (they were written in English), resulting in a 23% acceptance rate, which was within our goal of less than 40%.

We would like to express sincere gratitude to the invited speakers for their inspirational talks, to the authors for submitting their work to this conference, and the reviewers for sharing their experience during the selection process.

November 2017.

Miguel Botto-Tobar
Nelly Esparza-Cruz
Joffre León-Acurio
Narcisa Crespo-Torres
Marola Beltrán-Mora
