Konstantinos Tsilionis
Universitair Docent
Information Systems IE&IS
E-mail: k.tsilionis@tue.nl

Konstantinos Tsilionis holds a bachelor's degree in physics from the Aristotle University of Thessaloniki, Greece. He holds a Master's degree in Business Economics as well as a Master's degree in Business Administration (MBA) with a specialization in Business Information Management from KU Leuven, Belgium. He has worked for more than three years as a physics instructor in Greece and for more than two years within the Belgian financial sector as a corporate actions market expert as well as a data analyst. He completed his Ph.D. at the Research Center for Information Systems Engineering at KU Leuven, Belgium. The thematic of his doctoral dissertation is placed at the intersection of Agile Requirements Engineering, Model-Based Systems Engineering, and IT Governance. In addition, he has served as a program committee member for a wide range of conferences, such as the International Conference on Business Informatics and the ACM Symposium on Applied Computing, among others. He has been invited to be a reviewer for journals such as Information and Software Technology, IEEE Transactions on Services Computing, and IT Professional among others.
